

Emile Henry

PROFESSIONNEL

Designed to cope with varying traffic and presentations, all items in the Welcome range offer multiple layouts which allow easy organization for buffet presentations. Monoblock, each piece guarantees a high resistance to chips thanks to the reinforced handle which runs along the edge, providing easy handling and ensuring perfect stability once stacked.

MODULARITY

Multiple options available:

- dishes and bowls fit together nicely, allowing for perfect stackability
- different heights allow for sleek, flexible presentations
- stacked on top of the bowl, the shallow dish enhances smaller quantities at the end of service

ORIGINAL AND MODULAR

For use as a plate or a lid, oven dish or bowl; the oblong individuals in the Welcome range are as versatile as they are unique.

A practical size for individual portions, they can be stacked for self-service buffets. Filled with cold or hot contents, they can easily be arranged in rows without wasting space.

Place the dish directly on the plate to serve hot at the table or use as a lid to ensure that the contents remain hot.

ELABORATE DESIGN

Innovative 'skirt' around the rim:

- provides **great grip** for easy handling
- allows **perfect stackability**
- offers a surface to describe the content

**Service from the oven,
on the buffet or at the table**

welcome
